Re: Hearing Application
Bolivina Mexicana Sand, Reservoirs A and B
ELLIS FIELD
Acadia Parish, Louisiana
Applicant: Henry Production Company, Inc.

Dear Mr. Commissioner:

In accordance with the Rules of Procedure for Conducting Hearings Before the Commissioner of Conservation of the State of Louisiana, application is hereby made on behalf of **HENRY PRODUCTION COMPANY, INC.** for the calling of a public hearing, after legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the Bolivina Mexicana Sand, Reservoir A and Reservoir B, in the Ellis Field, Acadia Parish, Louisiana.

1. To dissolve and terminate the effectiveness of the unit designated as the BM RB SUA, Ellis Field, Acadia Parish, Louisiana, established by Office of Conservation Order No. 275-A-3, and shown more particularly on the attached plat; and
2. To establish rules and regulations and create a single drilling and production unit for the Bolivina Mexicana Sand, Reservoir A, designated as the BOL M RA SUA, as shown on the plat attached hereto;
3. To force pool and integrate all separately owned tracts, mineral leases and other property interests within the unit so created on a surface acreage basis of participation;
4. To designate Henry Production Company, Inc. as the Unit Operator for the proposed unit;
5. To designate the Henry Production Company, Inc. – R. C. Jabusch No. 1 well, located in Section 14, Township 9 South, Range 1 West, Acadia Parish, Louisiana, as the unit well for the proposed unit at the location shown on the attached plat, in exception to the spacing provisions of Statewide Order 29-E and Office of Conservation Order 275-A-3.

6. To allow the Commissioner of Conservation to reclassify the reservoir by supplemental order, without the necessity of a public hearing, should the producing characteristics of the reservoir change and evidence to justify reclassification is submitted to and accepted by the Commissioner of Conservation.
7. To consider such other matters as may be pertinent to the Bolivina Mexicana Sand, Reservoir A.

The Bolivina Mexicana Sand (formerly Upper Nodosaria No. 1 Sand), in the Ellis Field, Acadia Parish, Louisiana, was previously defined by Office of Conservation Order No. 275, effective June 1, 1954 and is further defined as that gas and condensate bearing sand encountered between the depths of 11,394' and 11,412' (electric log measurements) in the Henry Production Company, Inc. - R. C. Jabusch No. 1 well, located in Section 14, Township 9 South, Range 1 West, Acadia Parish, Louisiana.

Pursuant to the Revised Rules of Procedure, pre-application notice was given; however, no request for the conference was received. Therefore, the conference tentatively scheduled for Friday, September 20, 2002 **WILL NOT BE HELD.**

Attached hereto and made a part hereof is a plat outlining the BOL M RA SUA, in the Ellis Field, Acadia Parish, Louisiana, and a list of the names and addresses of the Interested Owners, Represented Parties, and Interested Parties to whom this notice is being sent. Pursuant to the Revised Rules of Procedure, such plat (being the same plat attached to the notice dated August 30, 2002) and list of parties are being furnished only to the Commissioner of Conservation and the District Manager of the Lafayette District of the Office of Conservation; however, the plat and/or list of parties will be furnished to any party requesting copies. It is hereby certified that a reasonable effort has been made to ascertain the names and addresses of all Interested Owners, Represented Parties, and Interested Parties.

Upon receipt of the legal notice in the captioned matter, the notice will be posted, published, and mailed in accordance with Rule 7 of the Rules of Procedure.

Finally, there is enclosed herewith our check on behalf of the applicant in the amount of \$700.00, made payable to the Office of Conservation, representing the required hearing application fee.

Very truly yours,

CUTRIGHT & HARDWICK, INC.

Travis A. Helms
